Challenges of Data Protection

@JobavaL10n

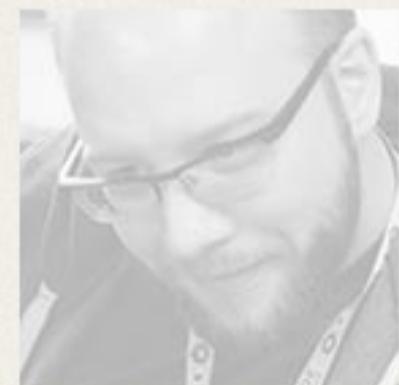

Who am I?

Jobava,
mozillian

The Mozilla Manifesto

These are the principles that guide our mission to promote openness, innovation & opportunity on the Web.

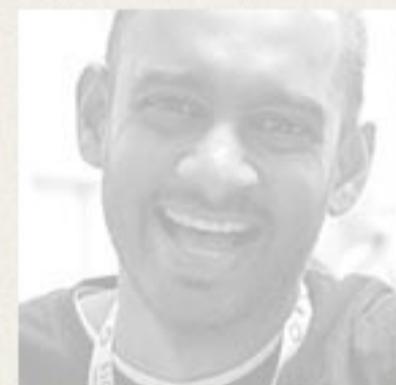

SHARE

{ OUR 10 Principles }

01

The Internet is an integral part of modern life—a key component in education, communication, collaboration, business, entertainment and society as a whole.

Our mission

“An open Web free and accessible to all”

Open
Free
Accessible

Open, Free, Accessible

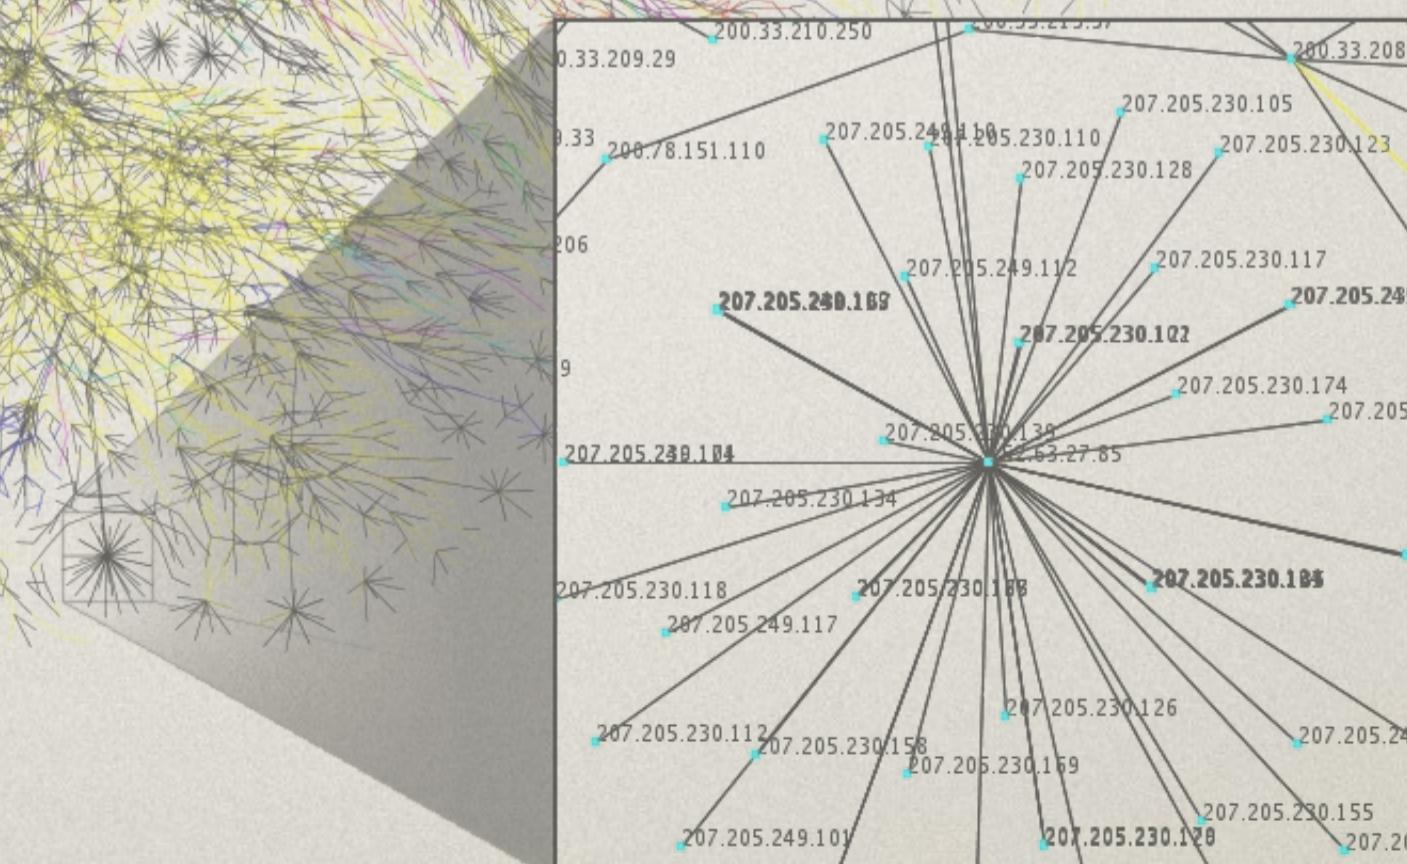

Open, Free, Accessible

Open, Free, Accessible

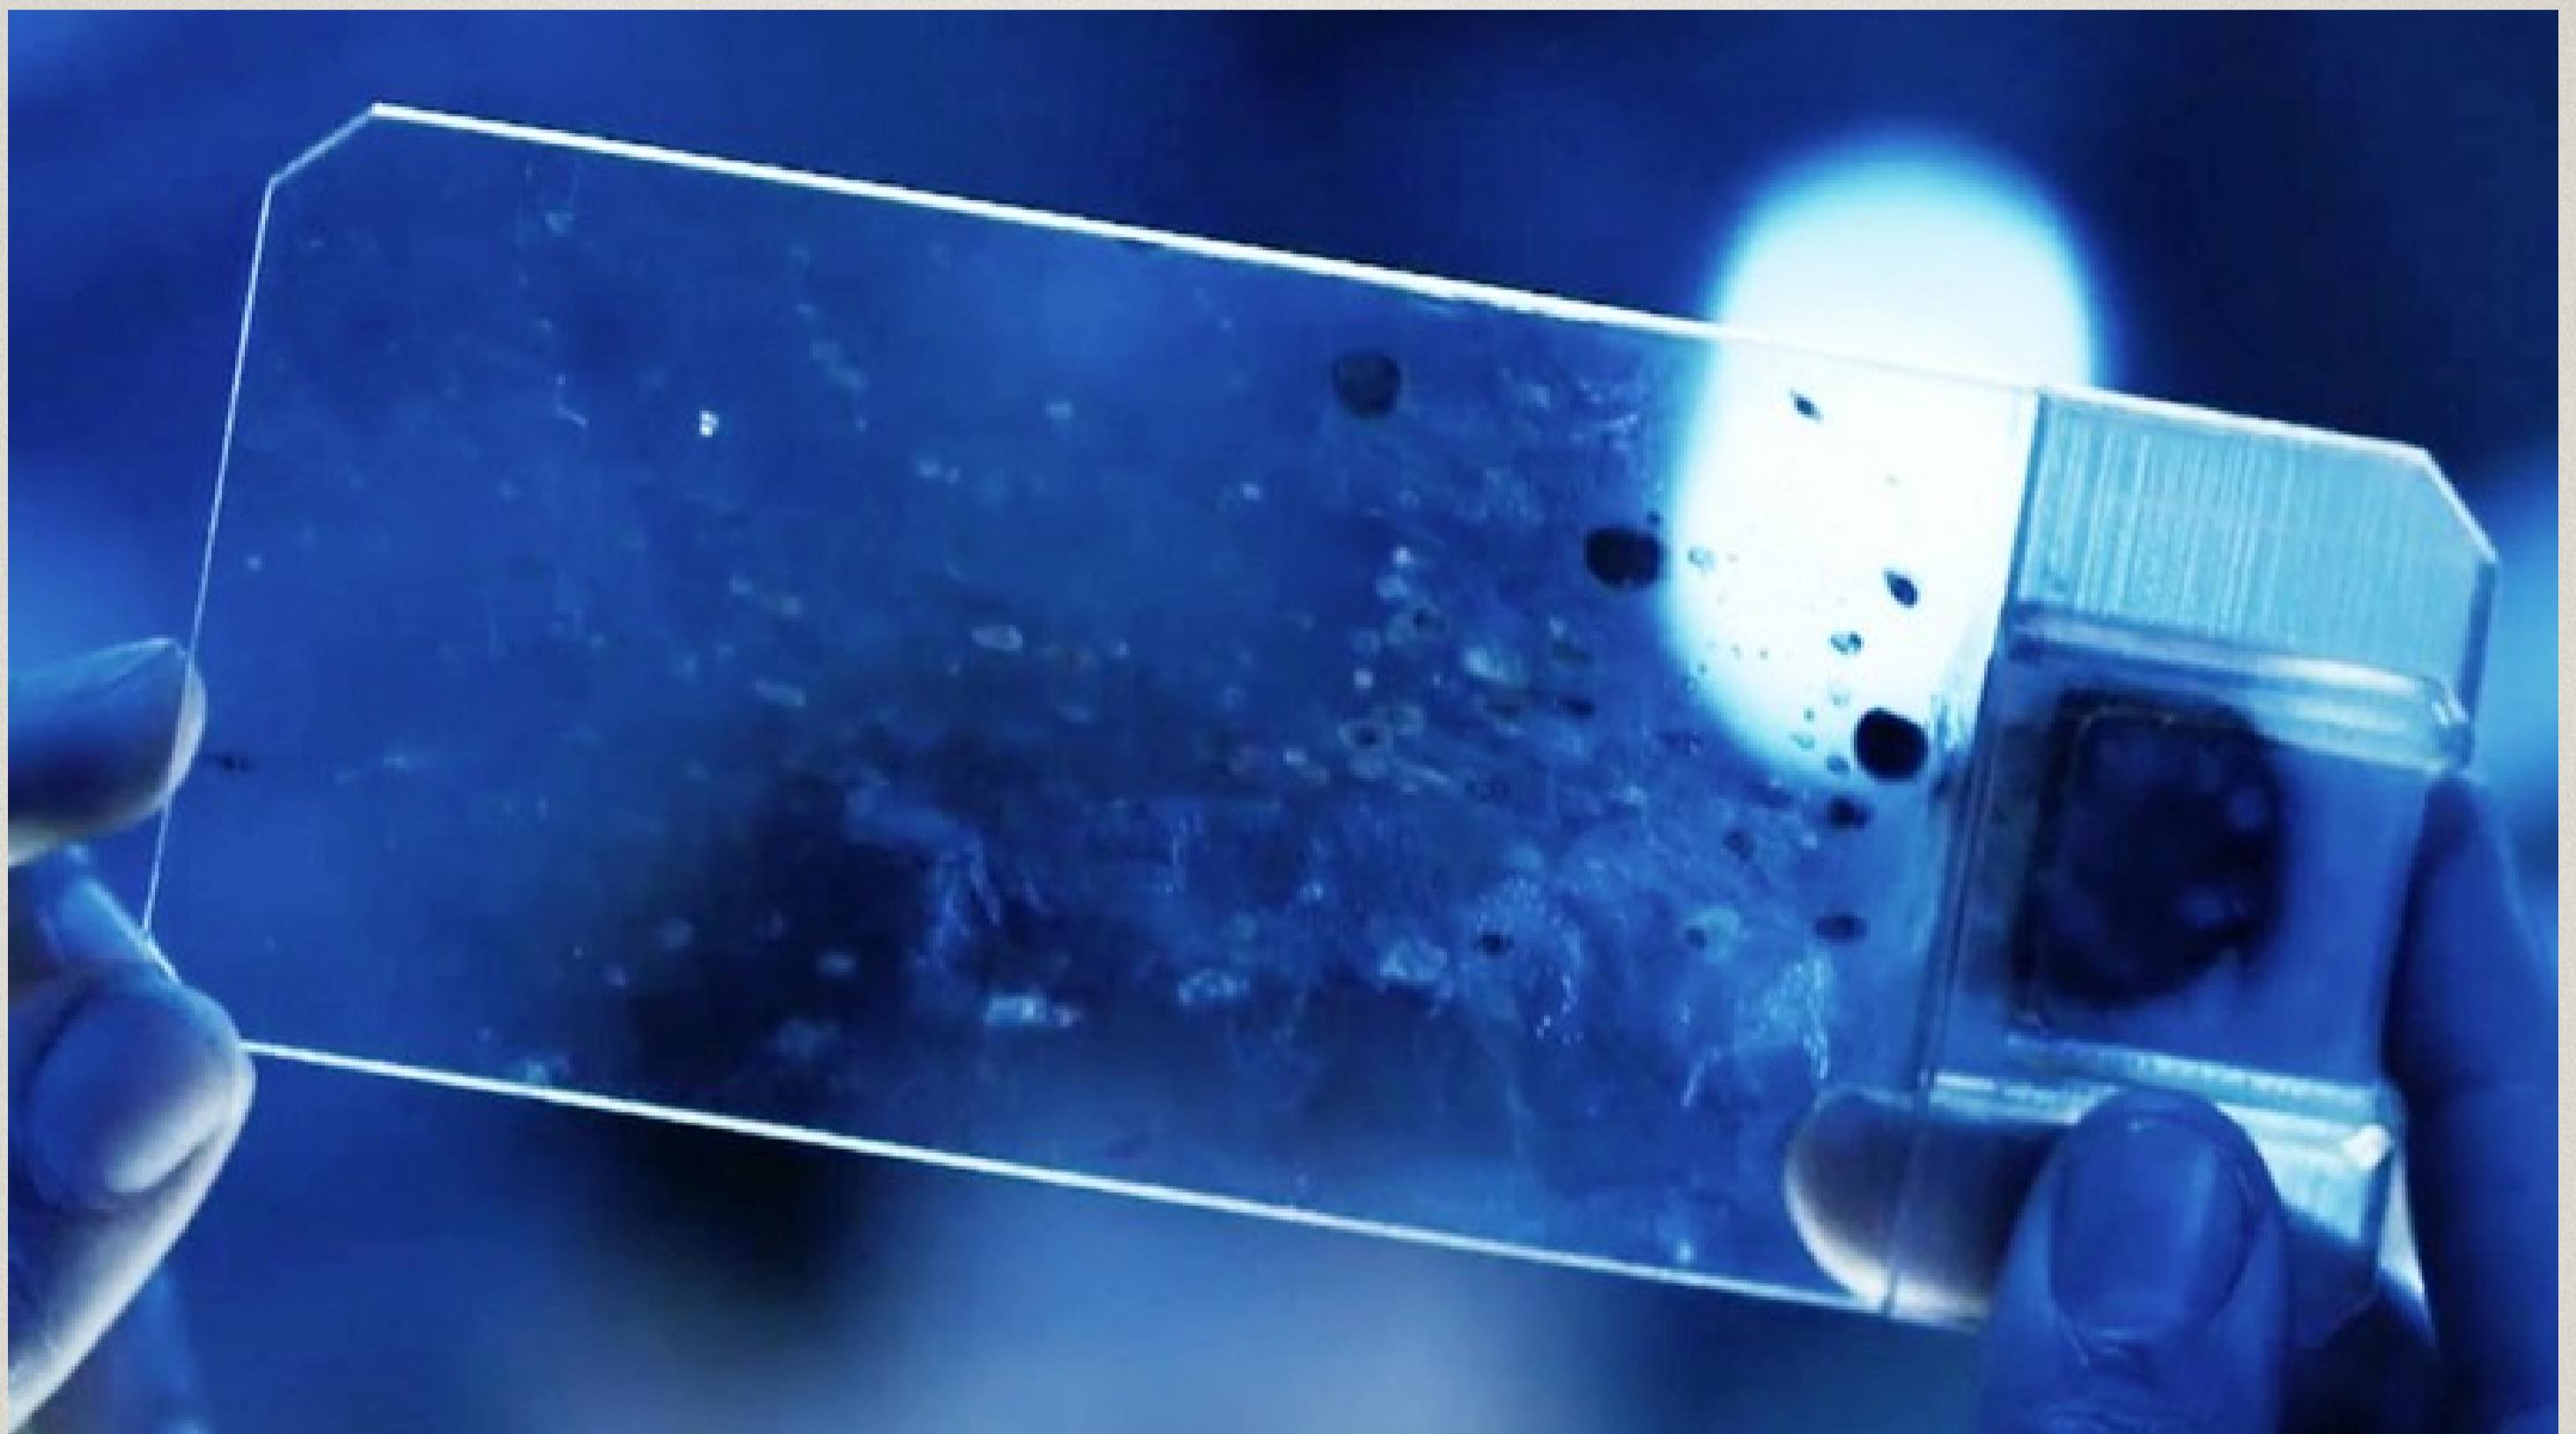

The background of the slide features a dense, abstract network of thin, multi-colored lines (yellow, green, blue, red, purple) that intersect and overlap to create a complex, organic pattern resembling a neural network or a microscopic view of a biological structure. This visual metaphor represents the interconnectedness and accessibility of open knowledge.

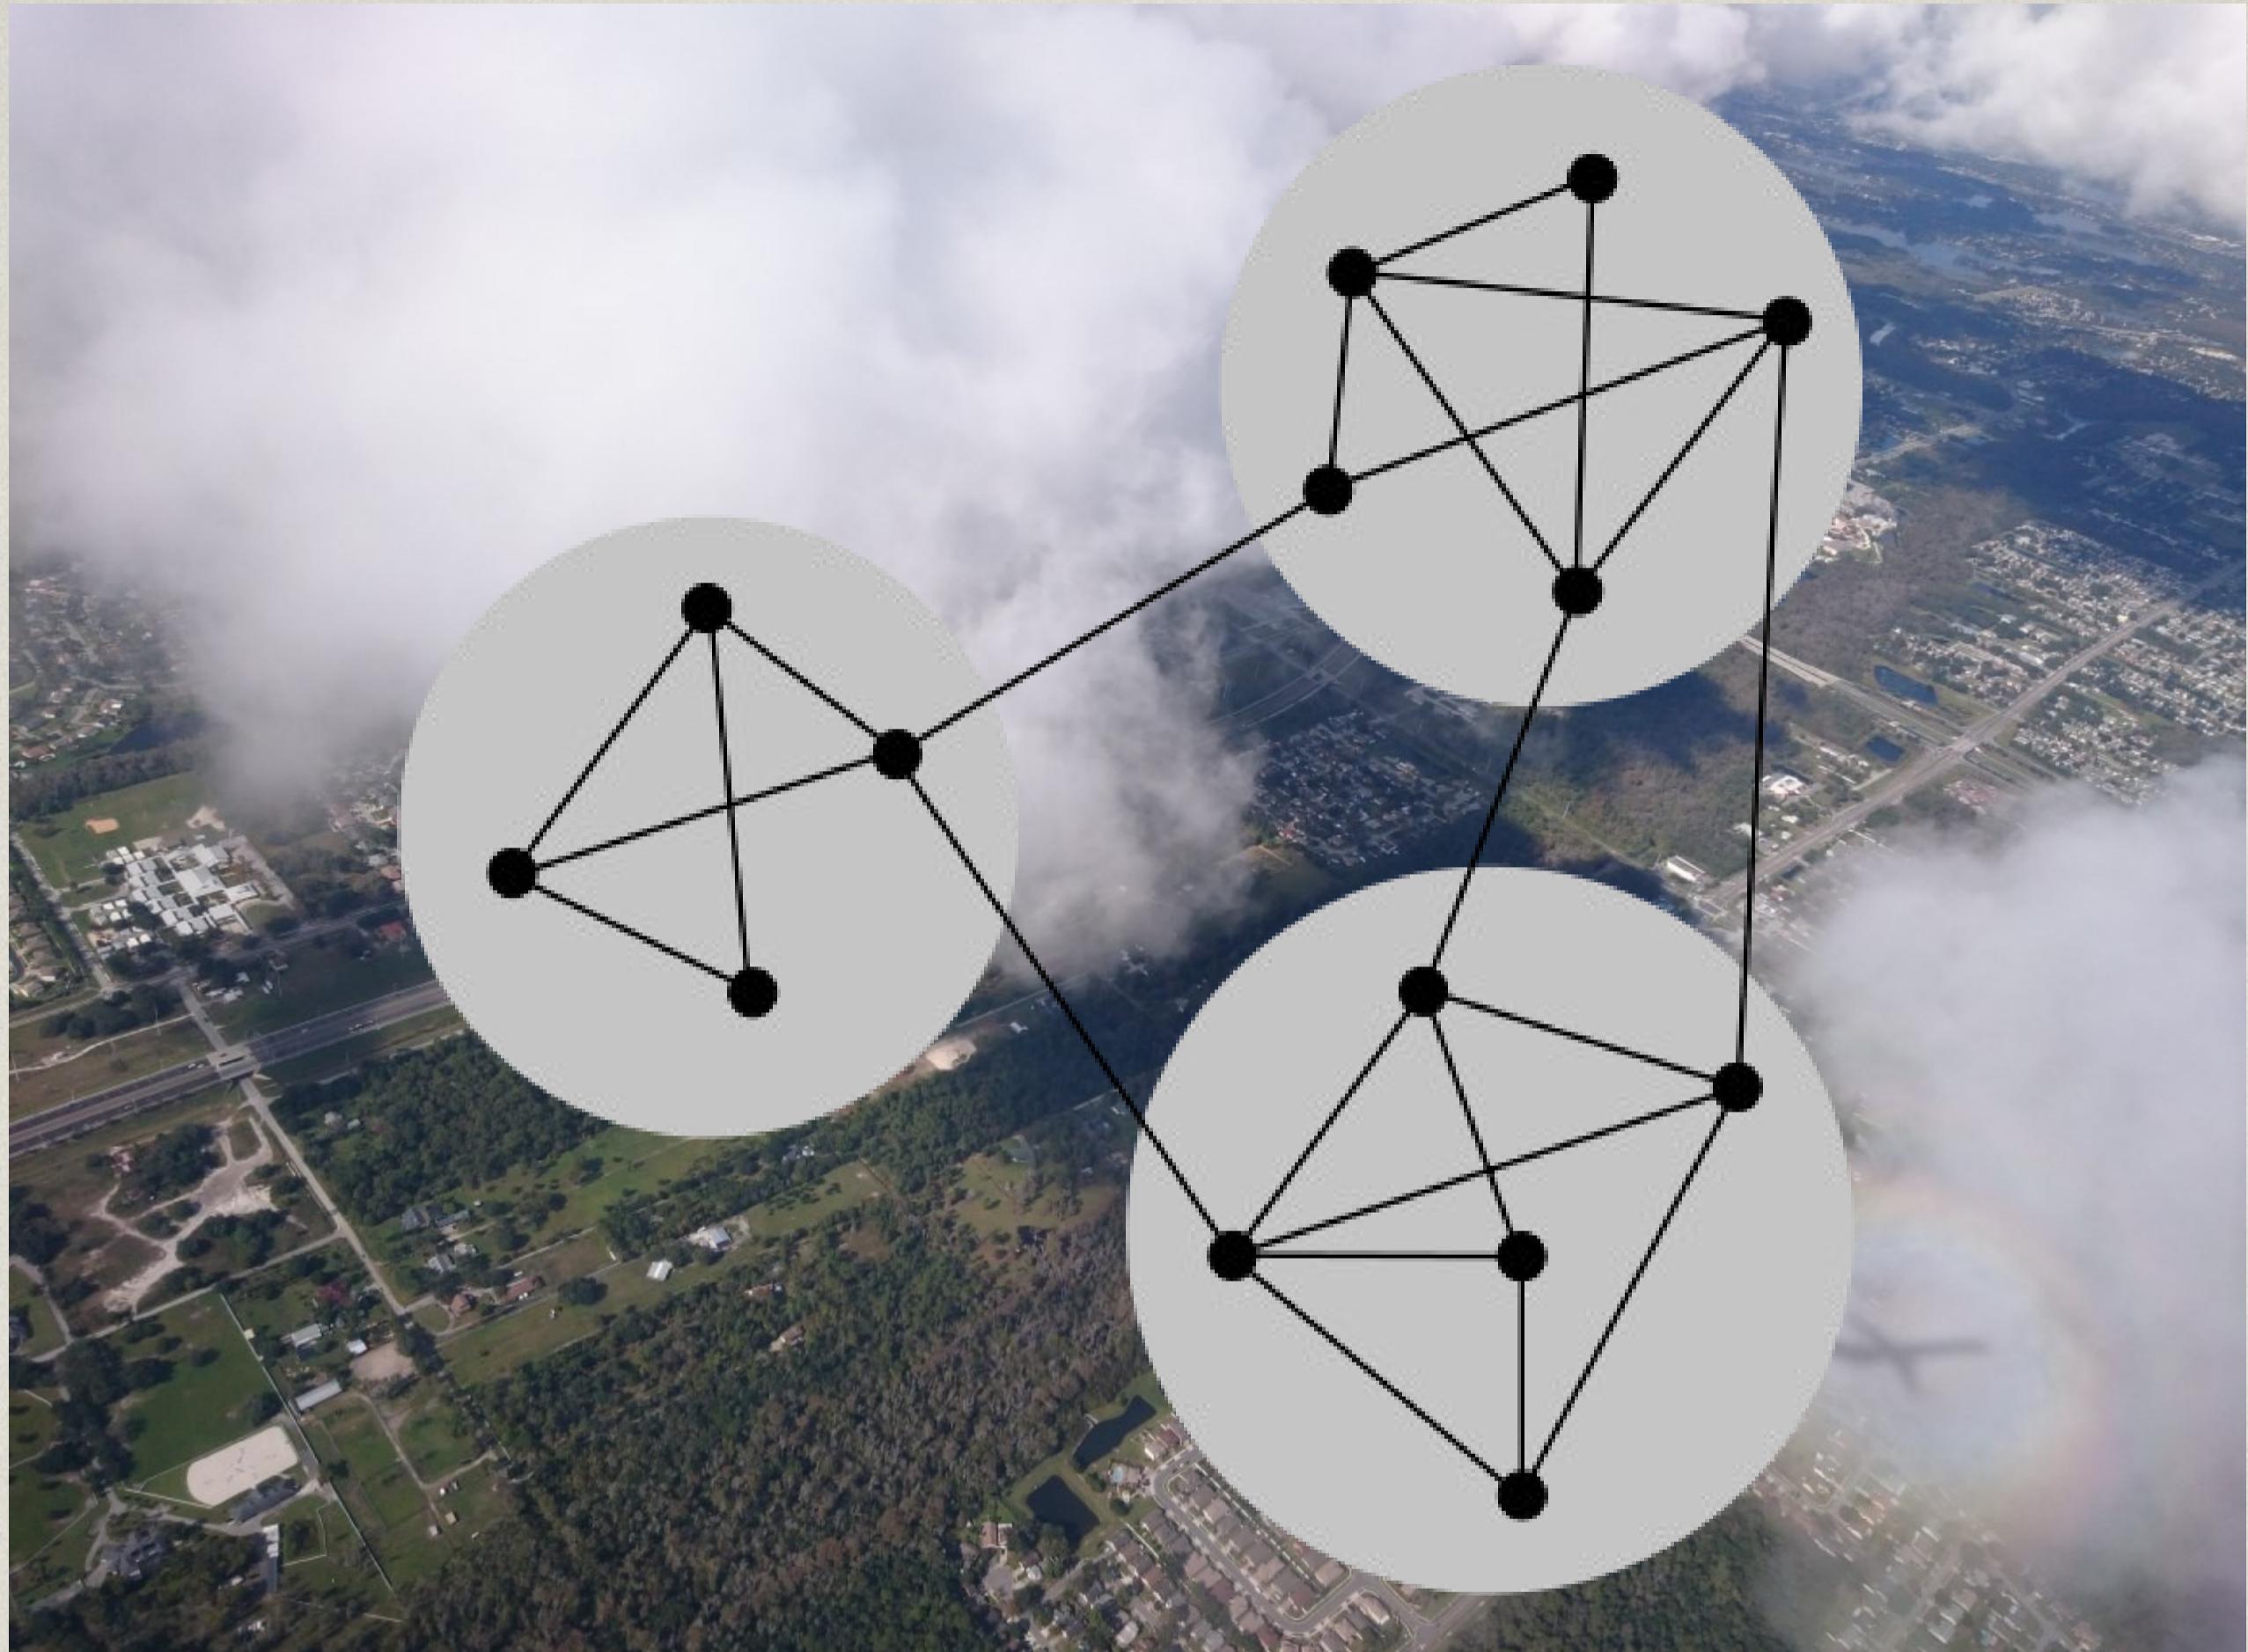

There is NO CLOUD, just

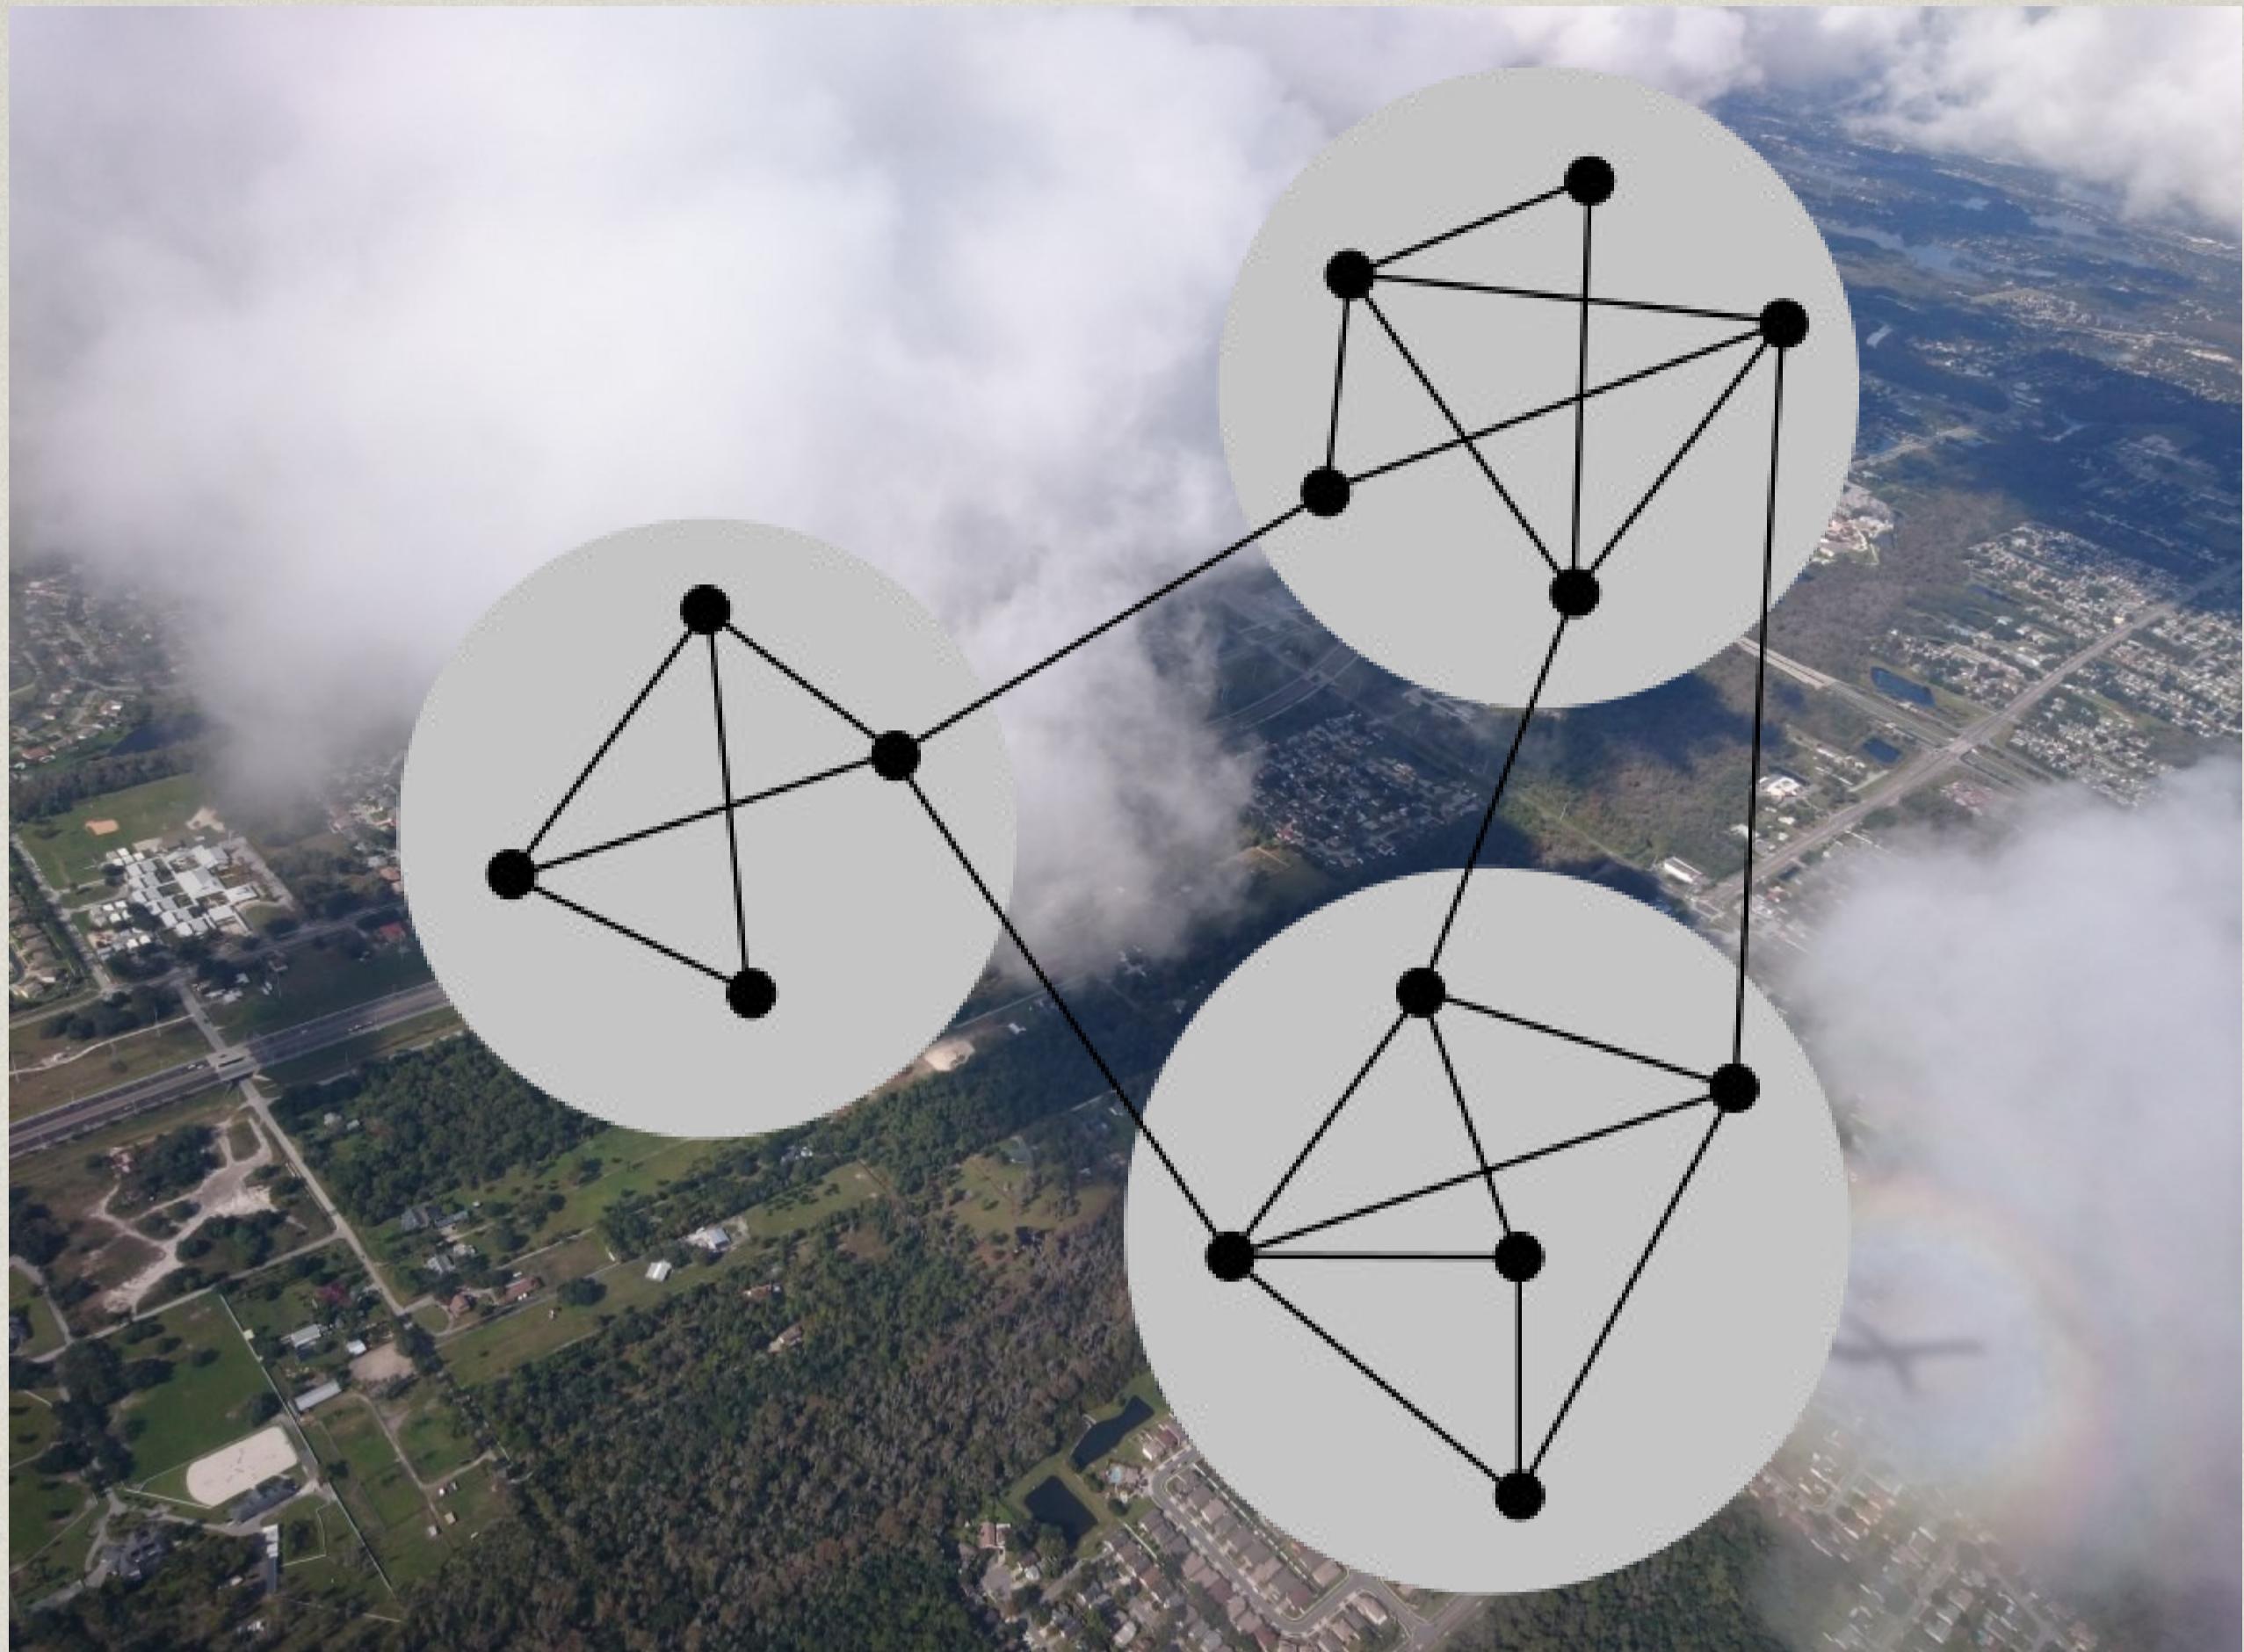

Other people's computers

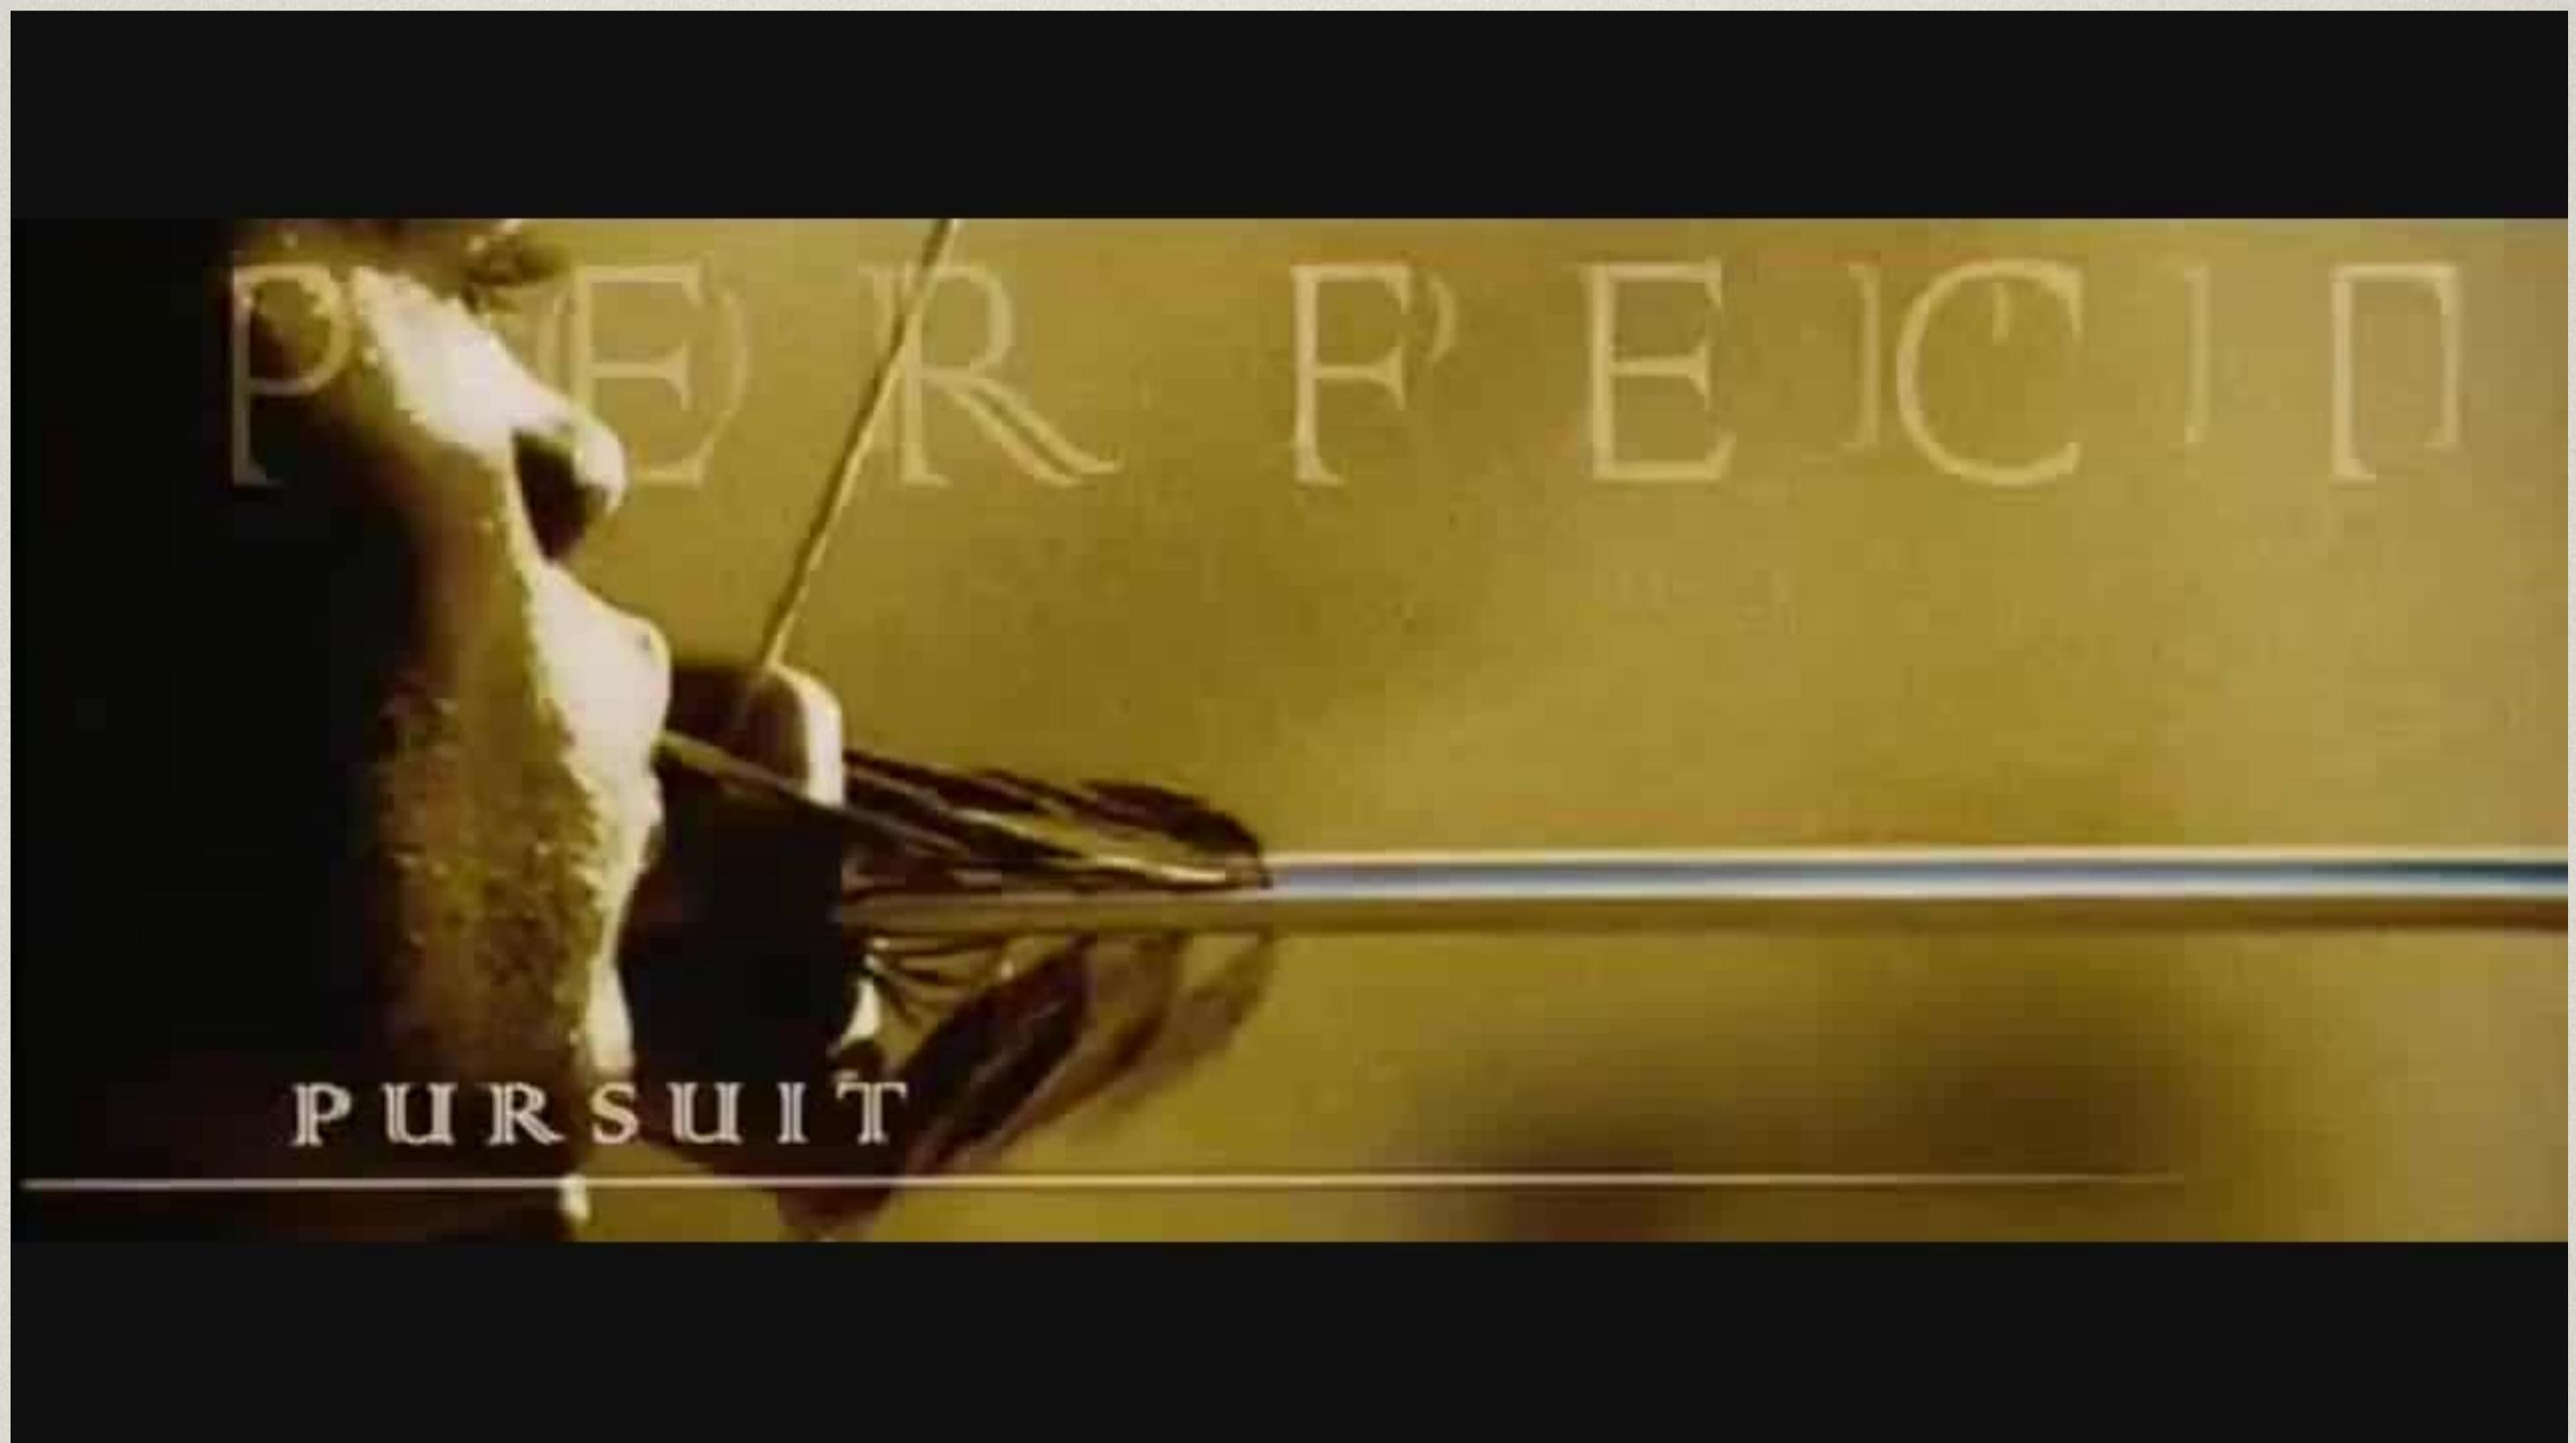

Networked Mobility

More than just computers

People

Opportunity

Lean Data Practices

It's not just a computer

It's part of you

An internet, not a minefield

Safe for people is safe to grow
